

# Table of Contents

## Glossary of Abbreviations

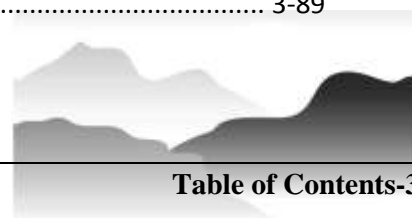

<b>Chapter 1 - Equipment</b> .....	1-1
Anesthesia Equipment - General Maintenance Schedule.....	1-1
Anesthesia Machine - Detailed Inspection.....	1-2
The Anesthesia Machine - Weekly Cleaning Schedule.....	1-2
Cleaning of Anesthetic Equipment After Use on Patients With Contagious Disease .....	1-3
ETT, Face Mask, Breathing Hose and Reservoir Bag Cleaning .....	1-3
ETT Selection .....	1-4
Reservoir Bag Size Selection.....	1-5
The CO <sub>2</sub> Absorber Canister and Granules.....	1-5
Choosing a Breathing Circuit.....	1-6
The Pediatric Circle Breathing System .....	1-6
The Universal F Breathing System.....	1-7
Circle Breathing System Low Pressure Leak Testing Procedure .....	1-8
Non-Rebreathing Circuit Leak Testing Procedure .....	1-9
Universal Negative Pressure Leak Testing Procedure.....	1-10
Anesthesia machine High Pressure Leak Testing Procedure .....	1-10
Function and Leak Testing the Ventilator .....	1-11
Anesthesia Delivery Check List.....	1-12
The Pulse Oximeter .....	1-13
The ECG .....	1-14
The Esophageal ECG Lead .....	1-14
Esophageal ECG Lead Construction .....	1-15
Esophageal Stethoscope .....	1-16
Thermometers.....	1-16
Respiratory Monitors .....	1-16
The Doppler Blood Pressure Monitor .....	1-18
Oscillometric Blood Pressure Monitors .....	1-20
Direct Arterial Blood Pressure Monitoring.....	1-21
Steps for Direct Mean Arterial Blood Pressure Measurement .....	1-22
The Capnograph .....	1-24
Effective Capnography Monitoring for Very Small Patients .....	1-26
Building a Passive Scavenging System.....	1-27
Buying an Anesthesia Machine .....	1-30

<b>Chapter 2 – General Guidelines</b> .....	2-1
Inducing Anesthesia .....	2-1
Inducing Anesthesia with IV Pentothal .....	2-1
Inducing Anesthesia with IV Pentothal and Diazepam .....	2-2
Inducing Anesthesia with IV Propofol Method I .....	2-2
Inducing Anesthesia with IV Propofol Method II .....	2-2
Inducing Anesthesia with IV Propofol and Diazepam .....	2-3
Inducing Anesthesia with IV Propofol and Ketamine (ketofol) .....	2-3
Inducing Anesthesia with IV Ketamine and Diazepam or Midazolam .....	2-4
Inducing Anesthesia with Alfaxan .....	2-4
Inducing Anesthesia with IV Fentanyl and Diazepam or Midazolam (Canine Only) .....	2-5
Oxygen Flow Rates .....	2-6
Impact of Oxygen Flow Rate on Inhalant Anesthetic Delivery .....	2-6
Nitrous Oxide Flow Rates .....	2-7
Monitoring Depth of Anesthesia .....	2-8
Using a Ventilator .....	2-9
Manual Intermittent Positive Pressure Ventilation (IPPV) .....	2-10
Managing the Ventilated Patient .....	2-11
Weaning a Patient off IPPV .....	2-12
Patient Positioning Check List .....	2-12
Assimilating Isoflurane into Your Practice .....	2-13
Assimilating Sevoflurane into Your Practice .....	2-13
Guidelines for Reducing Occupational Exposure to Waste Anesthetic Gas .....	2-14
Mask Induction Technique .....	2-15
Feline Balanced Anesthesia Technique .....	2-16
Canine Balanced Anesthesia Technique .....	2-16
Post Anesthesia Nasal Oxygen Supplementation for Dogs and Cats .....	2-17
Low Flow Anesthesia .....	2-19
Fluid Therapy During Anesthesia .....	2-20
Canine Blood and Colloid Therapy During Anesthesia .....	2-21
Feline Blood and Colloid Therapy During Anesthesia .....	2-22

<b>Chapter 3 - Protocols</b> .....	3-1
Glossary of Abbreviations (Alphabetical).....	3-1
An Approach to Safe Small Animal Anesthesia .....	3-2
Anesthesia for Sight Hounds .....	3-5
Anesthesia for the Cat with Controlled Hyperthyroidism.....	3-7
Anesthesia for the Cat with Uncontrolled Hyperthyroidism .....	3-10
Anesthesia for the Dog with Mitral Valve Disease.....	3-12
Anesthesia for the Stable Patient with Trauma .....	3-14
Anesthesia for Brachycephalic Breeds .....	3-17
Anesthesia for Dogs with Gastric Dilation and Volvulus (GDV) .....	3-19
General Anesthesia for Elective Canine Caesarean Section .....	3-22
Anesthesia for Emergency Canine Caesarean Section.....	3-25
Post-caesarean Resuscitation of Newborn Puppies and Kittens .....	3-28
Anesthesia for Healthy Puppies and Kittens Under 8 weeks of Age.....	3-29
Anesthesia for Puppies and Kittens 8 to 16 Weeks of Age .....	3-31
Anesthesia for the Cat with Lower Airway Disease .....	3-33
Anesthesia for the Healthy Pot Bellied Pig.....	3-35
Anesthesia for Healthy Cage Birds .....	3-37
Anesthesia for Canine Diaphragmatic Hernia Repair.....	3-40
Anesthesia for Healthy Rabbits.....	3-43
Anesthesia for Fractious Cats.....	3-50
Anesthesia for the Diabetic Cat.....	3-52
Anesthesia for the Healthy Adult Cat.....	3-54
Anesthesia for the Cat with Chronic Renal Insufficiency (I.R.I.S. stage 1 and 2) .....	3-56
Anesthesia for the Cat with Urethral Obstruction .....	3-59
Anesthesia for the Healthy Geriatric Cat .....	3-62
Anesthesia for Feline Diaphragmatic Hernia Repair .....	3-64
Anesthesia for the Obese Dog or Cat.....	3-68
Anesthesia for Aggressive Dogs .....	3-69
Anesthesia for the Dog or Cat Undergoing Myelography.....	3-71
Anesthesia for the Dog or Cat Undergoing CSF Tap.....	3-73
Anesthesia for Dogs and Cats with Known Seizure Disorders .....	3-76
Anesthesia for Canine Dentistry and Oral Surgery .....	3-78
Anesthesia for Feline Dentistry and Oral Surgery.....	3-81
Anesthesia for the Stable Cat or Dog with Head Trauma .....	3-84
Anesthesia for the Healthy Geriatric Dog .....	3-87
Anesthesia for the Dog with Chronic Renal Insufficiency .....	3-89

Anesthesia for the Diabetic Dog ..... 3-91

Anesthesia for the Cat with Hepatic Lipidosis..... 3-93

Anesthesia for the Cat with Hypertrophic Cardiomyopathy (HCM) ..... 3-95

Anesthesia for Feline Chest Tube Placement..... 3-97

Anesthesia for Canine Chest Tube Placement ..... 3-100

Anesthesia for Feline Exploratory Laparotomy..... 3-102

Anesthesia for Feline Bronchoscopy ..... 3-105

Anesthesia for the Septic Cat ..... 3-107

Anesthesia for the Healthy Ferret..... 3-109

Anesthesia for the Dog with Hypothyroidism..... 3-110

Anesthesia for Canine and Feline Ophthalmic Surgery..... 3-111

Use of Muscle Relaxants in Ophthalmic Anesthesia of the Dog and Cat..... 3-114

Anesthesia for the Dog with Hepatic Disease ..... 3-116

Anesthesia for the Dog with Addison’s Disease..... 3-118

Anesthesia for Canine Upper GI Endoscopy ..... 3-119

Anesthesia for Canine Exploratory Laparotomy ..... 3-121

Anesthesia for Canine Bronchoscopy ..... 3-124

Anesthesia for the Septic Dog..... 3-126

Chemical Restraint for Canine Radiography ..... 3-128

Chemical Restraint for Canine Cardiac Ultrasound..... 3-129

Chemical Restraint for Feline Cardiac Ultrasound ..... 3-129

Anesthesia for the Bleeding Dog..... 3-131

Anesthesia for the Bleeding Cat..... 3-134

Anesthesia for the Dog with Pneumothorax..... 3-136

Anesthesia for the Cat with Pneumothorax..... 3-139

Anesthesia for Canine Broncho Alveolar Lavage ..... 3-142

Anesthesia for Feline Broncho-Alveolar Lavage..... 3-144

Anesthesia for the Dog with Heartworm Disease..... 3-146

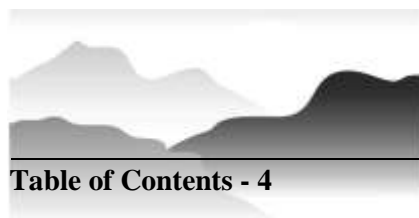

Anesthesia for the Dog with Collapsing Trachea ..... 3-148

Anesthesia for the Dog with Pyometra ..... 3-150

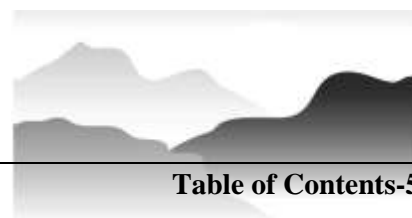

Anesthesia for the Dog with Cushing’s Disease ..... 3-152

Anesthesia for the Dog or Cat Undergoing MRI Scan ..... 3-155

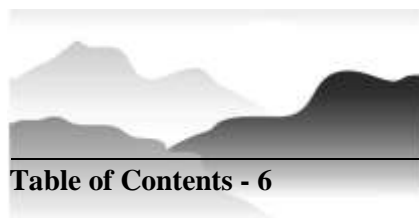

Hospital Admission Questionnaire ..... 3-157

<b>Chapter 4 – Trouble shooting</b> .....	4-1
Intervention Guidelines During Anesthesia .....	4-1
Patient Will Not Go To Sleep.....	4-2
Patient Has Post-Anesthesia Upper Airway Obstruction .....	4-4
Patient is Bradycardic.....	4-6
Intra-operative CPR.....	4-9
CPR Technique.....	4-10
After Successful CPR.....	4-12
Patient is Hypotensive.....	4-13
Patient Is Hypoventilating .....	4-17
Patient Is Hypoxemic.....	4-18
Pulse Oximeter is Reading Low .....	4-19
Patient is Moving During Anesthesia .....	4-20
Patient has Increased Breathing Effort .....	4-21
Patient is Hypothermic.....	4-23
Patient is Tachycardic.....	4-24
Patient has Premature Ventricular Contractions (PVC's).....	4-26
Patient is Recovering from Anesthesia too Slowly.....	4-28
Patient is Hyperthermic .....	4-29
Interpreting an Abnormal Capnograph Display .....	4-30
<b>Chapter 5 – Anesthesia Drugs</b> .....	5-1
Acepromazine .....	5-1
Acetaminophen.....	5-2
Alfaxalone.....	5-3
Atipamezole .....	5-4
Atracurium .....	5-5
Atropine .....	5-6
Atropine vs. Glycopyrrolate .....	5-7
Bupivacaine .....	5-8
Buprenorphine .....	5-9
Butorphanol .....	5-11
Carprofen .....	5-12
Codeine .....	5-13
Dexmedetomidine.....	5-14

Diazepam.....	5-15
Dopamine.....	5-16
Dopamine CRI Recipe.....	5-17
Ephedrine.....	5-18
Epinephrine.....	5-19
Esmolol.....	5-20
Etomidate.....	5-21
Fentanyl.....	5-22
Fentanyl Transdermal Patch.....	5-23
Glycopyrrolate.....	5-24
Hydromorphone.....	5-25
Isoflurane.....	5-26
Ketamine.....	5-27
Lidocaine.....	5-29
Medetomidine.....	5-31
Meloxicam.....	5-35
Meperidine.....	5-36
Methadone.....	5-37
Midazolam.....	5-38
Morphine.....	5-39
Naloxone.....	5-40
Neostigmine.....	5-41
Nitroprusside.....	5-42
Nitrous Oxide.....	5-43
Oxymorphone.....	5-44
Pentothal (thiopental).....	5-46
Phenobarbital.....	5-47
Phenylephrine.....	5-48
Procainamide.....	5-49
Propofol.....	5-51
Propoflo 28.....	5-53
Rocuronium.....	5-54
Sevoflurane.....	5-55
Telazol (Tiletamine and zolazepam combination).....	5-56
Tolfenamic Acid.....	5-57

**Chapter 6 – Pain Control** ..... 6-1

Assessing Feline Surgical Pain ..... 6-1

Assessing Canine Surgical Pain ..... 6-3

Strategies for Effective Peri-operative Pain Management ..... 6-5

Peri-operative Pain Management Protocols ..... 6-6

Surgical Pain Control Flowcharts ..... 6-8

Canine Moderate Pain Treatment Options ..... 6-11

Feline Moderate Pain Treatment Options ..... 6-15

Canine Severe Pain Treatment Options ..... 6-19

Feline Severe Pain Treatment Options ..... 6-23

Regional Analgesia Options ..... 6-27

Sacro-coccygeal Epidural Analgesia in the Dog and Cat ..... 6-28

Epidural Analgesia in the Dog and Cat ..... 6-30

Lumbo-sacral Epidural Analgesia Flowchart ..... 6-32

Epidural Morphine Analgesia ..... 6-33

CALCULATING EPIDURAL DRUG DOSES- Morphine ..... 6-34

Epidural Lidocaine Analgesia ..... 6-35

CALCULATING EPIDURAL DRUG DOSES-Lidocaine ..... 6-36

Epidural Bupivacaine Analgesia ..... 6-37

CALCULATING EPIDURAL DRUG DOSES- Bupivacaine ..... 6-38

Epidural Morphine and Lidocaine Analgesia ..... 6-39

CALCULATING EPIDURAL DRUG DOSES-Morphine and Lidocaine ..... 6-40

Epidural Morphine and Bupivacaine ..... 6-41

CALCULATING EPIDURAL DRUG DOSES- Morphine and Bupivacaine ..... 6-42

Epidural Buprenorphine Analgesia ..... 6-43

CALCULATING EPIDURAL DRUG DOSES – Buprenorphine and Bupivacaine ..... 6-44

Intercostal Nerve Blocks in Dogs and Cats ..... 6-45

Oral Regional Analgesia ..... 6-46

Infraorbital Nerve Block ..... 6-47

Maxillary Nerve Block ..... 6-48

Mandibular Nerve Block ..... 6-49

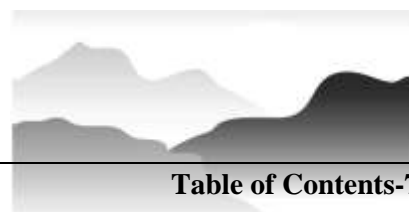

Mental Nerve Block ..... 6-50

IV Regional Anesthesia (Bier block) ..... 6-51

Brachial Plexus Nerve Block ..... 6-52

Metacarpal Ring Block ..... 6-53

Intra-articular Infusion ..... 6-54

Intra-thoracic Infusion..... 6-55

Analgesic Constant Rate Infusion Recipes ..... 6-56

Ketamine CRI Recipe ..... 6-57

Ketamine and Morphine CRI Recipe ..... 6-58

Ketamine Morphine and Lidocaine CRI Recipe ..... 6-59

Feline Fentanyl CRI Recipe ..... 6-60

Feline Hydromorphone CRI Recipe ..... 6-61

Canine Fentanyl CRI Recipe..... 6-62

Canine Hydromorphone CRI Recipe..... 6-63

**Index**
